

Emergency Fund

Helping people today for tomorrow

Addendum to 2008 Audited Financials

Surplus/Deficit

Please note that the loss seen in the 2008 financials was attributed to the following:

The Emergency Fund experienced a fair market value drop in investments. In addition, program expenses were allocated according to contributions designated for 2008. A small percentage of those funds were not received prior to December 31, 2008. The total amount was absorbed by sufficient net assets. No deficit was carried into 2009.
